FULL-TIME/ PART-TIME STATUS

AY 22-23 Average Graduate Salary By Position

SOFTWARE ENGINEER $140,416
PRODUCT MANAGER $167,142
CONSULTANT $125,000
QUANT DEVELOPER $158,333
RESEARCHER $140,000
DATA SCIENTIST $142,500

The data represented here reflects responses from MPCS graduates from the 2022-2023 academic year. Current student data reflects our student body at the time of publication.

PUTTING MPCS ALUMNI ON THE MAP

The MPCS is good at balancing sufficiently deep dives into theory with application. I received ample teaching into theory and got to develop plenty of larger scale applications.”

Austin Clark, 2023 MPCS Graduate

MPCS gives me in-depth CS knowledge. Originally from Civil Engineering background, I became well-equipped with programming skills and CS background knowledge needed to transfer to my new career after graduating from MPCS program.”

Siqi Li, 2023 MPCS Graduate
